Something About the Mines.

The American Journal of Mining, published in New York, as well as other papers East and West, have severely criticized the Mining Report of J. Ross Browne as being not only incomplete, but incorrect and incorrect in detail and estimate. Probably much of the incompleteness of the report of the Government agent arose from the shortness of the time allowed to render the first report, together with the meagreness of the amount of money appropriated to meet expenses. The field allotted to Ross Browne were the States and Territories of the Pacific coast. The mining regions east of the Rocky Mountains were set apart to Commissioner James W. Taylor, whose report has recently found its way into the papers. Whether Utah, Montana and Idaho are regarded as falling into Browne's or Taylor's division seems to be wrapped in considerable doubt. Hence each gentleman has had something to say, but that something had better have been left unsaid. Evidently neither Commissioner visited the Territories named, with a view to the collection of information, and what they did otherwise obtain is crude, imperfect, and, in many instances, incorrect. In Colonel Taylor's report the following is all, and just what he says concerning the mines of this Territory:

UTAH.—The dominant ecclesiastical organization of Utah is adverse to mining for gold and silver, although iron and copper mines have been worked successfully in the Wasatch mountains. The general testimony is that silver will be discovered in many localities. Sixty miles south of Great Salt Lake City veins of argentiferous galena in Rush river (!) district have proved valuable, and mining operations, including the construction of furnaces, are well advanced. These ores assay two hundred and sixty ounces of silver. Coal for the supply of Great Salt Lake City is mined at a distance of forty miles. An extensive silver district, in the southwestern angle of Utah, was lately transferred to the State of Nevada.

With this very brief and imperfect sketch of the mineral resources of Utah, Commissioner Taylor turns the Territory over to the tender consideration of Congress. The Rush Valley District referred to, lies on the westerly face of the Oquirrh mountains, the dividing ridge between Great Salt Lake and Rush Valley. The mines are of large extent, with ore from the surface averaging from fifty to seven hundred and fifty dollars per ton. Wood and water are near at hand and cheaply obtained in abundance. Near by is the town of Stockton, and at a distance of eight miles the large Mormon settlement of Tooele City. Both Tooele and Rush Valleys are susceptible of easy cultivation, and large crops are now annually raised. The mines are, thirty-eight miles from Great Salt Lake City, and within from one to two miles of the Overland stage road; Stockton being a "home station" of Wells, Fargo & Co.'s daily stages.

On the easterly side of the Oquirrh or West Mountain range lie the mines of Bingham Canyon District, of considerable extent and undoubted richness. In the Wasatch range, twenty miles south of this city, are found the Cottonwood silver mines, where at least one furnace has been erected, and the work of development is slowly but surely progressing. All around in both ranges of mountains which skirt the valley of Great Salt Lake, iron and copper are found in abundance, but as yet

little has been done toward opening the veins. The coal mines of Chalk creek and the Weber, within forty miles of this city, have been for a long time and are still profitably worked, and there is little doubt that coal will be found both east and west and much nearer this market at an early day.

The mines of Pahrangat, about three hundred and fifty miles southwest, have already been proven to be rich and extensive, and it is believed the coming summer will be characterized by a large and remunerative expenditure of eastern capital in their development. The want of capital, no less than the opposition of the "dominant ecclesiastical organization of Utah," referred to by Commissioner Taylor, has retarded the opening and profitable working of the silver mines of this Territory. But the day is not distant when Utah will increase the nation's product of silver, iron, copper and other minerals.

[SPECIAL TO THE "DAILY UNION VEDETTE."]

Memphis, May 7.

The greater part of the plantations south of here on the river are overflowed. The planters are in a starving condition.

Washington, May 7.

The case of Virginia against West Virginia was argued in the Supreme Court to-day.

Montreal, May 7.

A Cabinet council will be held Friday. All ministers from foreign countries will be present, including Cartier.

New Orleans, May 7.

The street car question has been settled. The Chief of Police has issued an order forbidding interference with negroes in any car. The steamer Young America, for New Orleans, went ashore near Safford Island in a gale on Saturday. The crew saved the cargo. Cattle mostly lost.

Fortress Monroe, May 7.

Most gratifying reports have already been received from counties in the registration districts in this State south of the James river, which furnish conclusive evidence of the conciliatory manner in which the inhabitants are receiving Registering officers, and assisting them in preliminary measures of the Reconstruction bill. This feeling among the people is general. Even those disqualified by the bill have, in many cases, proffered their assistance, and impressed upon their neighbors the actual necessity of the policy of non-interference with the registration of duly qualified voters. A good feeling exists toward the colored people.

Fever patients from the Susquehanna are convalescing. The Susquehanna goes to Portsmouth, N. H., Admiral Palmer having transferred his flag to the De Soto.

Workmen are now engaged in removing the old boilers from the frigate Lancaster, now lying at the Gasport Navy Yard. A new set will be placed in her.

New York, May 7.

General Palmer, Treasurer of the Union Pacific Railroad, eastern division, received \$480,000 in U. S. bonds, being the amount due on the seventh section of thirty miles of their completed road, just accepted by Government commissioners.

A Washington special says the Japanese Commissioners informed Secretary Seward, privately, of the object of their mission. They had an interview with Secretary Welles relative to the purchase of vessels.

Another special says it is not true that Chief Justice Chase will be in Richmond next week to preside at the trial of Jeff Davis. He will not leave the Bench of the Supreme Court till the close of the term, May 20th.

The Judiciary Committee will probably remain in session two or three weeks, then adjourn to New York to examine conveyance of the Kansas branch of the Union Pacific Railroad.

Brevet Lieut.-Col. Clendinning, 8th U. S. Cavalry, has been ordered to conduct a detachment of troops to California.

The ship Golconda left Baltimore to-day, for Savannah, to carry emigrants to Siberia.

Chicago, May 7.

The troubles growing out of the eight hour movement are subsiding. Some public attempts at disturbance was made yesterday, but were speedily quelled by the police. No demonstrations to-day, and work was resumed by most of the manufacturing establishment employees, some working ten hours a day without advance wages; others work eight hours with a reduction of twenty per cent.

St. Louis, May 7.

A mass meeting of workmen last night resolved to enforce the law making eight hours

a legal day's work, and consenting to accept reasonable wages.

Washington, May 7.

The registry of the city has been completed, 5,846 being the entire number of males. Majority of 969 white voters.

[BY ATLANTIC CABLE.]

Dublin, May 7.

The Fenian prisoner, Connolly, was to-day convicted of high treason by a special Commission, and the prisoner Clark was acquitted and discharged from custody.

A NEW SOURCE OF REVENUE.—It is rumored, says the *Alta California*, that the authorities of Contra Costa county are busily engaged in gathering the names of parties present at the late prize fight at Point Isabel, with the view to commence prosecutions against them. Already over 300 names have been obtained, and, as the fine for their being present at a prize fight is \$500 and imprisonment it follows that with reasonable diligence enough money may be obtained from this source to pay off the county debt.

KNOW THY DESTINY.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotor, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with the date of marriage, position in life, leading traits of character, etc. This is no humbug, as thousands of testimonials can attest. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By inclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and inclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications strictly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, N. Y. [ap16-ly]

A YOUNG LADY returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft rosy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the *Circassian Balm*, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by Mail or Express, on receipt of an order by W. L. CLARK & CO., Chemists, ap16-ly No. 3 West Fayette St., Syracuse, N. Y. The only American Agents for the sale of the same.

For Removing Superfluous Hair. To the ladies, especially, this invaluable depilatory recommends itself as being an almost indispensable article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally and radically; extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depilatory in existence. Price, 75 cents per package, sent post-paid, to any address, on receipt of an order by BERGER, SHUTTS & CO., Chemists, ap16-ly 285 River street, Troy, N. Y.

BEAUTY!

Auburn, Golden, Flaxen, and Silken Curls. Produced by the use of Prof. DEBREUX' PRINER LE CHEVEUX. One application warranted to curl the most straight and stubborn hair of either sex into wavy ringlets, or heavy massive curls. Has been used by the fashionables of Paris and London, with the most gratifying results. Does no injury to the hair. Price by mail, sealed and post-paid, \$1. Descriptive circulars mailed free. LOUIS A. GARNETT, President and Manager JOHN HEWSTON, Jr., Chemist and Superintendent

This Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent. (heretofore a quarter) for all amounts over \$1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to \$1,000, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.

On bullion from 300 to 600 parts gold, 4 cents per ounce.

On bullion from 600 to 750 parts gold, 6 cents per ounce.

On bullion from 750 to 900 parts gold, 8 cents per ounce.

Above 900 the only charge will be for coining. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin Made in Forty-Eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we submit the tariff of charges now in force at that institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300 to 600 parts gold, 5 cents per ounce.

For refining bullion from 600 to 750 parts gold, 7 cents per ounce.

For refining bullion from 750 to 900 parts gold, 11 cents per ounce.

For refining bullion from 900 to 999 parts gold, 14 cents per ounce.

The charge for coining is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coining, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost 1/2 of one per cent.—they must be sold at the following per rates to equal the return which would have been made had they been deposited for coining:

\$50 per to equal Mint return, at refining charge of 14 cents.

\$65 per to equal Mint return, at refining charge of 11 cents.

\$85 per to equal San Francisco A. & B. Works return, at refining charge of 8 cents. [ap16-ly]

BREWER & SPRAGUE. [ap16-ly]

To Advertisers.—The Union-Tribune is the pioneer daily newspaper of Utah. Its extensive circulation in every mining camp and city of Montana and Idaho, (which it gives the newspapers of those States a whole week ahead of the Pacific papers,) makes it the most advantageous medium for advertising in these four central Territories.

LOCAL AND MISCELLANEOUS.

LINCH LAW.—The Colorado papers contain an account of the killing of James Martin by one Edward Bainbridge, under the following circumstances: Bainbridge challenged Martin to a game of cards, and Martin won. Bainbridge threatened to shoot him if he won the second. Martin won the game, and his card had scarcely touched the table before Bainbridge drew his revolver and fired at Martin, the ball entering his brain; and though still alive, his recovery was doubtful. Bainbridge was arrested, and the citizens were so enraged that a large crowd collected around the house and some of them, in order not to alarm the guard, entered an upper window by means of a ladder, and seizing Bainbridge hurled him out on the ground, where a clothes-line was fastened about his neck, and dragged to a tree near by, he was hung. His fate must have been a terrible one, as he was strangled to death. His neck was not broken.

GENERAL HANCOCK.—The Denver Daily says the expedition of General Hancock is under his own immediate supervision. General A. J. Smith commands the troops, which consist of the 7th United States Cavalry, under command of Lieut.-Col. and Brevet Major Gen. Geo. A. Custer; 37th Infantry, commanded by Captain John Rziha; battery B, 4th United States artillery, Captain Parsons commanding; and also a corps of engineers under Lieut. Micah Brown. General Davidson accompanies the expedition as Inspector General.

EXPLODING EXPEDITION.—A party of ten or twelve of our prominent citizens start some day this week on an exploring expedition throughout the length and breadth of Salt Lake. They intend to proceed as far as Bear river. They take with them fishing tackle, guns and ammunition for hunting purposes. As this is the first expedition of the kind, and from the well known reputation of the gentleman who will take notes, we shall expect a very interesting account of this novel trip. The party expect to be absent about ten days.

A dispatch from San Francisco, May 24, says the Famine Relief Commission has received \$1,027.50 from Washoe City, which is the largest contribution, we believe, thus far received from any town or city in proportion to its population and wealth. The total receipts of the Commission now foot up \$55,824.

RATHER SEVERE.—Two pleasing little incidents have occurred since the sun shone this morning, says the Daily Tropic of May 24. The street sprinkler has been arranging the dust, so that it will lie still. Madame Frazier left by stage this morning, for a missionary tour to Dutch Flat. May neither ever return!

RACE POSTPONED.—The race which was to have taken place yesterday was postponed in consequence of the track selected being too hard and rough. We are told that it will come off this afternoon over the Jordan track.

MISUNDERSTANDING.—Our informant in relation to the flour contract was mistaken. The contract has not been let, but the samples at the price stated in our last issue have been forwarded to the Commissary General.
